

News Director Alberta NW

Edson Alberta

Newcap Radio's Alberta Northwest Division has an exciting opportunity for the right candidate to lead our News Department in seven markets in Alberta NW, based at the hub station in Edson.

We're looking for a real news hound, someone who will go looking for stories instead of waiting for the latest press release, someone who has tight, concise writing skills, someone who loves audio in their stories, someone with a passion for News and someone who can coach and lead a busy team of eight news people in Athabasca, High Prairie, Slave Lake, Westlock, Whitecourt, Edson and Hinton. This is a great opportunity to learn, grow and lead.

Edson is ideally located on Highway 16 halfway between Edmonton and Jasper National Park so if an outdoor lifestyle suits you Jasper's Rocky mountains is one hour west or if you like the amenities that a major center can offer, Edmonton is two hours east.

There will be a regular, weekday, afternoon News run to anchor as well as reporting and Managerial Duties. Knowledge of Newsroom 4 will be an asset and general computer competencies a must, of course. At least 2 years working in a radio news environment is also a requirement.

If this is you please send copies of some stories you have written as well as an audio demo and resume to: ralexander@newcap.ca or Rob Alexander, Program Director, Newcap Radio Alberta NW, Box 7800 Edson, AB. T7E 1V8 by September 10.

Newcap values diversity in its workforce and is an equal opportunity employer.

No phone calls please and only those chosen for an interview will be contacted.
