BIRDE announces new LEMO MULTISHACK Media Converter

Markham, Ontario - BIRDE Marketing, the Canadian Distributor for LEMO, Switzerland, is now offering the LEMO MULTISHACK. This new media converter permits the connection of up to six SMPTE 304M hybrid HDTV cameras through a single 12-way fiber cable.

The MULTISHACK enables up to 6 cameras to be individually powered from one remote source (a local generator) through the 3K93C connectors and cables. The optical signals will continue to be transmitted through individual circuits for each channel within the multi-way cable. The power is inserted at the Camera end MULTISHACK via a waterproof mains / power connector and is distributed to the hybrid cables through individual circuits each containing a Residual Current Device (RCD) to ensure user safety in the event of any of the cables being cut. Individual RCD's are included to protect the user. In the event power is cut to one camera, the other channels are unaffected.

The CCU / OB side of the MULTISHACK system is powered by the output voltage from the CCU.

The advantages of the MULTISHACK conversion system are reduced cable costs and reduced installation time wherever multiple cameras are needed in a remote location. Applications include sports events like golf, skiing, racing tracks, stadium events and concerts.

About LEMO

LEMO is the acknowledged leader in the design and manufacture of precision custom connection solutions. LEMO's high quality push-pull connectors are found in a variety of challenging application environments including medical, industrial control, test and measurement, audio-video, and telecommunications.

About BIRDE Marketing

BIRDE Marketing has been the Canadian distributor for LEMO Switzerland for over twenty-five years. We have representatives across the country. BIRDE also provides SMPTE 311M hybrid cable assemblies made by LEMO trained technicians, from stock and made-to-order. For more information call 905-477-7722 or visit www.BIRDE.ca. For editorial contact or digital photography, please contact Dario Scognamiglio 514-335-4050 or dario@birde.ca
